

WILD AT HEART

WILDLIFE REFUGE CENTRE

Wildlife education project

Wild at Heart cares for injured and orphaned wildlife. They are rehabilitated and returned to the wild.

We visit classrooms to educate children on wildlife. We are in need of tools to enrich our education program and further engage the community.

LUMBER FOR SQUIRREL HOUSES

- **Used for released rehabilitated squirrels**
- **Precut – assembled by students**
- **Decorated by younger school groups**

BIRD IDENTIFICATION KIT

- **Used when visiting schools**
- **Teaches how to identify eggs and feathers of different species**

TRACKS AND SIGNS OF MAMMALS KIT

- **Used when visiting schools**
- **Teaches how to identify tracks and other signs of different species**
